INTRODUCTION

This report presents information from the 1971 Census of Canada, for persons 15 years and over, who worked in 1970, showing 1970 employment income by sex, age, class of worker and weeks worked in 1970 (by full-time and part-time). Data are shown for Canada, provinces and census metropolitan areas.

Average and median income figures in this report are calculated only for persons reporting employment income. Medians are calculated from group data shown in this report.

Comparability with 1961 data: Coverage in the 1961 Census was from a 20% sample of non-farm private dwellings only, and was exclusive of the Northwest Territories. In 1971 coverage was extended to include farm and collective dwellings and the Northwest Territories. The data from the two censuses are therefore not directly comparable.

The information in this report was collected on a 33 1/3% sample basis. As a result, the population for a given geographic area may differ from that shown in reports containing data collected on a 100% basis. The latter figures, of course, represent the official population counts (see Catalogue No. 92-715).

The 1971 Census figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Also, minor differences can be expected for corresponding totals and cell values in various census reports.

Note: Aggregate income calculated from these data should be used with caution as averages were calculated prior to rounding.

Ce bulletin présente des renseignements du recensement du Canada de 1971 en ce qui concerne les personnes de 15 ans et plus qui ont travaillé en 1970 selon le sexe, l'âge, le statut et le nombre de semaines travaillées en 1970 (à plein temps et à temps partiel), par revenu de l'emploi en 1970. Les données sont indiquées pour le Canada, les provinces et les régions métropolitaines de recensement.

Dans ce bulletin, le revenu moyen et le revenu médian ne sont indiqués que pour les personnes ayant un revenu de l'emploi. Les médianes sont calculées d'après les données de groupe présentées ici.

Comparabilité avec les données de 1961: Au recensement de 1961, les données étaient fondées sur un échantillon de 20 % des logements privés non agricoles seulement et excluaient les Territoires du Nord-Ouest. En 1971, le champ d'observation a été étendu aux logements agricoles et aux logements collectifs, ainsi qu'aux Territoires du Nord-Ouest. Les données des deux recensements ne sont donc pas directement comparables.

Les renseignements de la présente publication ont été recueillis sur un échantillon de 33 1/3 %. Il s'ensuit que les chiffres de population pour une région géographique donnée ne sont pas forcément les mêmes que ceux des publications dont les données sont intégrales. Bien entendu, ce sont ces dernières données qui représentent les chiffres officiels de population (voir la publication n° 92-715 au catalogue).

Par souci de confidentialité, les chiffres du recensement de 1971 publiés ici ont été soumis à une formule qui interdit la possibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités (y compris tous les totaux) des tableaux sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De plus, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences.

Nota: Les chiffres du revenu total fondés sur ces données doivent être utilisés avec circonspection, car les moyennes ont été calculées avant l'arrondissement.

LOWE-MARTIN No. 1137

DEFINITIONS

Persons who worked in 1970: Refers to those persons 15 years and over, who reported that they worked one or more weeks in 1970, either full-time or part-time.

Employment income: Employment income refers to the total income received in 1970 as wages and salaries, net non-farm business or professional income (gross receipts minus expenses of operations) and net income from farm operations (gross receipts minus expenses of operations including depreciation).

Age: Classifications are based on the number of completed years of age at last birthday prior to June 1, 1971.

Class of worker: Refers to the classification of employment according to whether persons mainly worked for others for wages, or helped without pay in a family farm or business, or mainly worked for themselves with or without paid help in their job in the week prior to enumeration, or if not employed at that time, in their job of longest duration since January 1, 1970. Those who were self-employed were asked in addition, if their farm or business was incorporated.

Wage-earners: Persons 15 years and over, who indicated that in the job reported, they were mainly working for wages, salaries, tips or commissions. Included are persons working for piece-rates, those working for payment "in kind" in non-family enterprises, salesmen on commission working for only one company and not maintaining an office or staff, and persons working casually by the day as odd-job labourers and baby-sitters. Self-employed in incorporated companies are included as wage-earners in 1971, but were probably not included in 1961.

Self-employed: Persons 15 years and over, for whom the job reported consisted mainly of self-employment (including partnership) in their own unincorporated business, professional practice or farm, with or without paid help. Included are persons working mainly on contract or as free lancers, private duty nurses, etc.

Unpaid family workers: Persons 15 years and over, for whom the job reported consisted mainly of work without regular money wages for a relative who was a member of the same household, at tasks which contributed to the operation of the business or farm owned or operated by the relative.

Evaluation of female unpaid family worker counts indicates these may be inflated by about 25% through reporting and processing errors. These errors resulted in improper inclusion of some females in the labour force and confusion with the wage-earner category.

Weeks worked in 1970, full-time or part-time: Persons who worked in 1970 were asked to report whether the weeks reported were mainly full weeks of work or mainly weeks in which they worked only part of a week. (Persons working only one day a week were instructed to mark "Part-time".) Persons with a part-time job for part of the year and a full-time job for another part of the year were to report the information for the job at which they worked the most weeks. Full-time work was defined as work for the full work week for the normal work hours.

The estimates of the mean square error for the characteristics covered in this report were not available at the time of publication. They will be available in the introductory report to this volume (Catalogue No. 94-759). Those users requiring this information prior to the release of the introductory report should contact the Census User Inquiry Service.

DÉFINITIONS

Personnes ayant travaillé en 1970: Personnes de 15 ans et plus qui ont indiqué avoir travaillé une semaine ou plus en 1970, soit à plein temps, soit à temps partiel.

Revenu de l'emploi: Le revenu de l'emploi est le revenu total reçu en 1970 sous forme de rémunération, de revenu net provenant d'une entreprise non agricole ou de l'exercice d'une profession pour compte propre (recettes brutes moins les dépenses d'exploitation) et de revenu net provenant d'une exploitation agricole (recettes brutes moins les dépenses d'exploitation, y compris l'amortissement).

Âge: Nombre d'années révolues au dernier anniversaire avant le 1^{er} juin 1971.

Statut: Classement des personnes occupées suivant qu'elles ont surtout travaillé contre rémunération, qu'elles ont travaillé sans rémunération dans une entreprise ou une ferme familiale ou qu'elles ont travaillé surtout à leur compte, avec ou sans aide rémunérée, dans l'emploi qu'elles occupaient au cours de la semaine précédant le dénombrement ou, si elles n'avaient pas d'emploi à ce moment-là, dans leur emploi de plus longue durée depuis le 1^{er} janvier 1970. Les travailleurs indépendants devaient également indiquer si leur ferme ou leur entreprise était constituée en corporation.

Salariés: Personnes de 15 ans et plus qui ont indiqué que, dans l'emploi qu'elles occupaient, elles travaillaient surtout contre rémunération, à la commission, ou pour des pourboires. Sont compris les personnes travaillant à la pièce, les personnes travaillant contre rémunération en nature dans une entreprise non familiale, les vendeurs travaillant à la commission pour une seule entreprise et n'ayant ni bureau ni personnel, ainsi que les personnes travaillant occasionnellement à la journée, comme les hommes à tout faire et les gardiennes d'enfants. Les travailleurs indépendants dans des entreprises constituées en corporation sont compris comme salariés en 1971, mais ils ne l'étaient probablement pas en 1961.

Travailleurs indépendants: Personnes de 15 ans et plus dont l'emploi déclaré consistait surtout en travail autonome (y compris en association) dans leur entreprise, profession ou ferme non constituée en corporation, avec ou sans aide rémunérée. Sont comprises les personnes travaillant surtout à contrat ou à la pige, les infirmières privées, etc.

Travailleurs familiaux non rémunérés: Personnes de 15 ans et plus dont l'emploi déclaré consistait surtout en travail sans rémunération régulière en espèces pour un parent membre du même ménage à des tâches contribuant à l'exploitation de l'entreprise ou de la ferme dont le parent était le propriétaire ou l'exploitant.

L'évaluation des chiffres des travailleuses familiales non rémunérées révèle une surestimation possible d'environ 25 % attribuable à des erreurs d'observation et d'exploitation. Ces erreurs ont entraîné l'inclusion erronée de certaines femmes dans la population active ainsi qu'une certaine confusion avec la catégorie des salariées.

Semaines travaillées en 1970, à plein temps ou à temps partiel: Les personnes qui ont travaillé en 1970 devaient indiquer si leurs semaines de travail étaient surtout des semaines entières ou surtout des semaines partielles. (Les personnes qui n'avaient travaillé qu'une journée par semaine devaient indiquer "à temps partiel".) Les personnes qui avaient un emploi à temps partiel pendant une partie de l'année et un emploi à plein temps pendant l'autre partie devaient répondre pour l'emploi qu'elles avaient occupé le plus grand nombre de semaines. Travailler à plein temps, selon la définition, c'est travailler une semaine complète pour le nombre normal d'heures de travail.

Les estimations de l'erreur quadratique moyenne des caractéristiques données dans ce bulletin n'étaient pas connues au moment de la publication. Elles seront disponibles dans l'introduction de ce volume (n° 94-759 au catalogue). Les utilisateurs désireux de connaître ce renseignement avant la publication du bulletin d'introduction devront s'adresser au Service-utilisateurs du recensement.

Publications of the Census of Canada, 1971

This report is one of the Volume Series of publications of the 1971 Censuses of Population, Housing and Agriculture. Altogether, there are some 225 reports in this series prepared in such a way that by removal of their covers the contents can be combined to form the materials comprising the 6 volumes and 25 separate volume parts in the entire series. A hard-covered binder, suitably titled, is included in the composite price to purchasers of the complete set of reports for any given volume part.

Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. For further information on census publications, address your inquiry to Information Division, Statistics Canada.

How to order reports

Orders for reports may be sent to Publications Distribution, Statistics Canada, Ottawa K1A 0T6, or to Publishing Division, Information Canada, Ottawa K1A 0S9. Enclose payment with your order in the form of a cheque or money order made payable to the Receiver General of Canada. If more convenient, census publications may be ordered from Information Canada bookstores in Halifax, Montreal, Ottawa, Toronto, Winnipeg, or Vancouver. For other details concerning deposit accounts, bulk orders, etc., contact Publications Distribution, Statistics Canada.

Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Field, Statistics Canada, Ottawa K1A 0T7.

Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. Requests should be sent to the Census User Inquiry Service specifying clearly the precise classifications or cross-classifications and the geographic areas. The exact categories for each characteristic and a rough table layout should be included.

Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Field of Statistics Canada.
